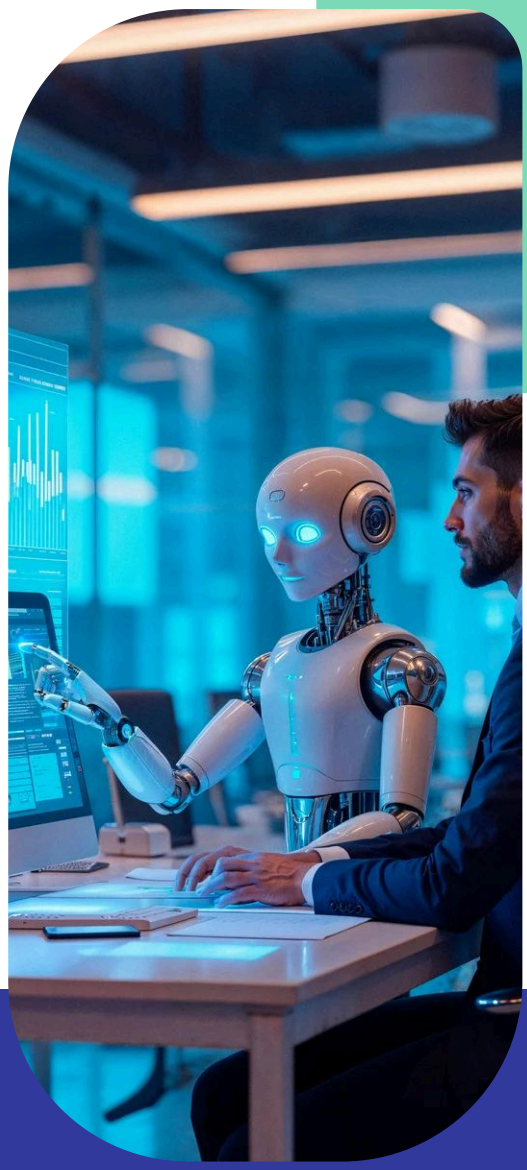
# WHAT YOU'LL LEARN

- Apply the four core principles of vibe coding: intent, simplicity, context and iteration.
- Define clear project intent in natural language using Lovable's Plan mode.
- Troubleshoot bugs and integrate APIs without writing code from scratch.
- Deploy a secure, functioning web application as a personal capstone project.



# COURSE CONTENT

**Module 1 — The Vibe Coding Mindset**
The mindset and principles of vibe coding, the tool landscape, and getting started with Lovable: setup and your first prompt.

**Module 2 — From Idea to Working App**
Project intent in natural language, from idea to prototype, effective prompting, troubleshooting, integrating APIs, and building securely.

**Module 3 — Final Assignment**
Build and reflect on your own to-do-list web app.
