# WHAT YOU'LL LEARN

- Judge the quality of a data set before you report on it.
- Recognise common reasoning errors in management reporting and forecasting.
- Judge which conclusions a data set does and does not permit.
- Apply GDPR requirements to collecting and retaining data in your own practice.

## COURSE CONTENT

**Module 1 — The quality of your data**
Where the numbers come from, what goes wrong on the way in, and how to judge a set before you build on it.

**Module 2 — Reading a report**
Which conclusions the numbers support, and the reasoning errors that turn up most often in management reporting and forecasting.

**Module 3 — Data in your own practice**
What the GDPR requires when you collect, use and retain personal data.
